

Communique Update 3/25/2016

POND LANDSCAPING - Change in date for Aquascaping is re-scheduled for Thursday, May 12, 2016. For your information, please go to "Community Info" for an informative brochure on "[Urban Runoff-Resident Tips](#)".

DOC MEETING DATE - Scheduled for Thursday, March 31st, 3:00 PM at Management & Associates. This is an open meeting.

SPRING CLEANING - Some of our roofs are in need of a good cleaning. While our homes are painted every seven years and roof cleaning is done at the same time, the roofs still need to be cleaned between scheduled house painting approximately every three to four years, and this is the homeowner's responsibility. While it is your choice as to who you hire for this project, some of our neighbors used TOP NOTCH. They spray a solution to the roof from ladders which removes the mold and mildew without having to climb across the roof causing possible tile breakage. Consider adding roof cleaning to your spring cleaning projects. It keeps our neighborhood looking *pretty*.
